Dear Dick,

Got TIME\_Skolnick. Wrote them. No response. Trying to arrange TV confrontation. Transportation problem. I can get the time on a top show, where I'm known, but there is no budget, hence no ticket. I'm trying others. If they present same obstacle, I'll try other approaches and, in fact, already have, including asking President of his college to invite me.

Me Daniel. Ugh!

Nothing further from Archives, anyone else, including John. His conduct becomes more and more strange, less and less like mere eccentricity. I have some notions of what he may be up to but before I express them I await any opinions you and Gary may have to offer.

Too bad yesterday's story on LBJ broadcast was not by a reporter with knowledge of the filed or one who knew me and might have phoned, for he now realizes this affair really says the President considers the Report of his own Commission wrong. Rather odd coincidence between this version of Oswald-not-entirely-alone and the fakery in the Gentry ghosting for Powers. Interestingly enough, with a large segment of the David Frost Show taped earlier and aired in DC last night, neither he nor Frost went into that.

Paul is in Washington for a physicists meeting, but I've not yet heard from him.

We finally have beautiful and warm weather. I'm in shorts.
